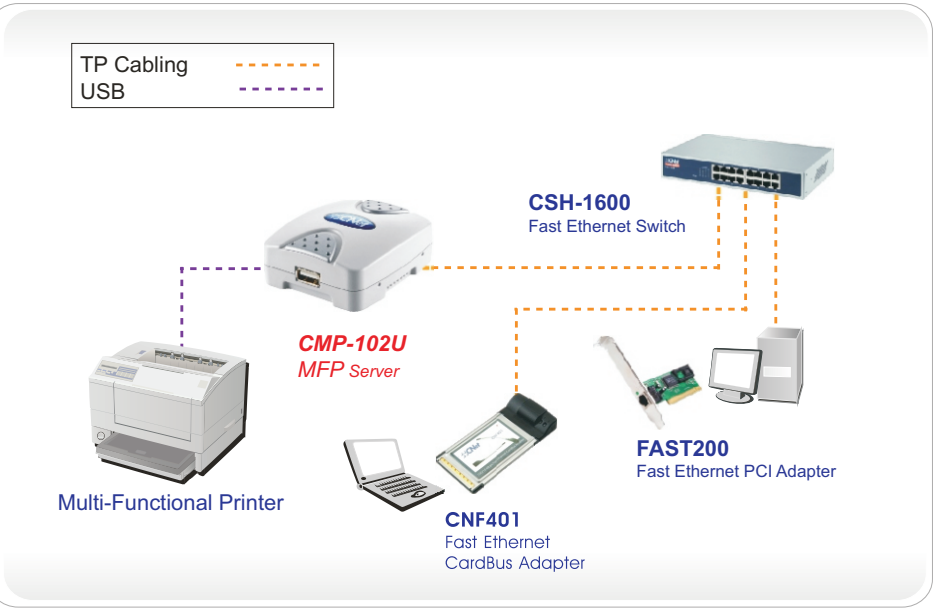
- ***Provides web-based management tool***
- ***Provides POST (Power On Self Test) function***
- ***Supports DHCP***

USB2.0 Multi-Functional Print Server

Multi-Functional printers are widely used in everywhere. It is not just a printer, but also a scanner, a fax machine, and even more. Most regular print servers may no longer meet the needs of MFP users. We are pleased to announce CMP-102U to our customers that a new generation Multi-Functional Print Server, built with high speed USB 2.0, is a wonderful solution for most Multi-Functional printers. With CMP-102U, your printer is not just a network printer. It is also a network scanner, which allows a scanned file to be sent to any network client. Of course, when users need to send a fax, it becomes a network fax machine. When you have a CMP-102U Multi-Functional Print Server, what else do you need?



Model No.:	CMP102U
